### What do you have to be thankful for?

In this great country of ours, Thanksgiving is a time to get together with family & friends and to remember what you are thankful for. Even with the economic downturn and all the problems facing the USA & the world, we all have at least a few. Perhaps it's your family – large or small; your circle of friends; the fact that you have a steady job; that you can still pay your monthly bills; that you have a home – old or new; that you have reliable transportation; food on the table and in the cabinets & freezer; a pet that gives you unconditional love; your good health - both physical & mental; pride in yourself and what you do and the list goes on and on. We all need to periodically examine our lives and be grateful for what we do have. We, as a country, have so much more than most of the people on this planet. This is the time of the year when we need to quit complaining, acknowledge what we do have and just say THANK YOU!!

### A Shameless Plug for JGI
